

**It's a Handbook.
It's a Student Advisor.
It's the Vital Arrival App.**

You can help your students prepare for their trip to Canada, guide them through the Airport, who to call in case of an emergency, calculate a tip, find a bus, connect with other students - and promote your school. All through one App.

Students can download the App before they leave home, show it to friends and family and arrive well prepared.

The App is customized and branded to your school. Naturally.

Platforms

Unlimited free downloads for iPhone, iPod Touch, iPad and Android users.
